ACCOUNTING OFFICE

Governor Floyd Correa  
Pueblo of Laguna  
P. O. Box 194  
O' Laguna, NM 87026

Dear Governor Correa:

Kilborn/NUS activities during September were limited to the meeting on September 13, 1979 and preparation of the questions for Anaconda. Therefore, this letter is being submitted in lieu of a formal monthly report.

- The Jackpile-Paguate Mine and Reclamation Plan Evaluation is presently being revised to reflect our discussions on August 2, 1979. It should be completed by October 29, 1979. I apologize for the delay, but it was unclear after the September 13, 1979 meeting whether it was advisable to wait for Anaconda's responses.

If you have any questions or comments, please do not hesitate to contact me.

Sincerely,

*Constance V. Braun*
